Markleen strengthens its position within the sector with the recent opening of Markleen AS in Norway

Markleen has consolidated its position as market leader in oil spill pollution response. Under the group's Norwegian founder and director Peter Øye, Markleen acquired in early November 2004 the assets and know-how of one of the sector's leading Norwegian companies, Enviro Team AS. This acquisition, leading to the opening of the group's Norwegian subsidiary Markleen AS, means Markleen takes a step further in its process of international expansion.
